On a sad note: UFO Researcher Lt. Col. Wendelle C. Stevens (Ret) passed away on September 7, 2010.

Nuclear Site Photo

UFORCOP is investigating a sighting of a UFO over a Nuclear Plant in Pennsylvania. A photograph taken by the person reporting the sighting cannot be debunked by UFORCOP, but it has been sent to a photo expert in Great Britain to see if they can find anything we can't. At this point the photo is good, but we will hold off till we get the results to advise our readers of the findings, and to publish the photo.

UPDATE ON ABOVE

The updated report shows there are definitely 3 objects in the photo and not atmospheric anomalies. **Case Closed.**

During the research on the above case at the Nuclear Plant we have come across many reports of UFOs over these types of facilities.

Why are these plants under scrutiny? Feel free to write us with your thoughts on why there is an interest in Nuclear Facilities and Nuclear Weapons Storage
